

Northrop Grumman to Showcase Innovative Capabilities and Technology Advances at Army Aviation Association of America Mission Solutions Summit

April 30, 2014

FALLS CHURCH, Va., May 5, 2014 /PRNewswire/ -- Northrop Grumman Corporation (NYSE: NOC) will highlight significant advances in developing, producing and modernizing U.S. military systems and related technologies at the Army Aviation Association of America (AAAA) Mission Solutions Summit. The event will be held May 4-6 at the Gaylord Opryland Hotel & Convention Center in Nashville, Tennessee.

NORTHROP GRUMMAN

Northrop Grumman's booth #902 will also highlight the company's many multifunction/multiplatform solutions designed to meet the needs of today's U.S. Army, including Common Infrared Countermeasures (CIRCM) system, APR-39D(V)2, Passive Infrared Cueing Sensor (PICS), Lightweight Countermeasures Device (LWCMD), Advanced Threat Warner (ATW), and family of tactical radars including STARLite, VADER and Longbow.

Northrop Grumman's solution for the Black Hawk L Model Cockpit Digitization Program will also be on the display. A number of Navigation Systems (including LN-200, LN-200A; LN-251; LISA 200; LN-100; LN-260; LN-270) will be featured along with Airborne Reconnaissance Low-Enhanced, Freedom™ 241 Manpack Jammer, Smart Node Pod and Northrop Grumman's Aviation Arabia program.

Information on the solutions showcased at the show is available online at www.northropgrumman.com/MediaResources/MediaKits/AAAA/.
