

Northrop Grumman to Brief Media on Advances in C4ISR and Integrated Avionics Equipment of the Future

October 27, 2014

Jeffrey Q. Palombo, sector vice president and general manager of Northrop Grumman Corporation's (NYSE: NOC) Land and Self Protection Systems Division, will discuss the future of integrated avionics equipment, highlighting how open architecture designs in mission equipment packages can offer a path to more configurable and capable aircraft. The briefing will include a demonstration of the company's new digitized and open architecture cockpit and applications.
