

Northrop Grumman to Upgrade Maersk Line Container Ships with New Navigation Systems

April 27, 2015

NEW MALDEN, U.K., April 27, 2015 /PRNewswire/ -- Northrop Grumman Corporation's (NYSE: NOC) Sperry Marine business unit has been selected to upgrade radar and ECDIS systems on more than 80 Maersk Line vessels.

NORTHROP GRUMMAN

The upgrade will replace all previous radar and ECDIS systems on these vessels and will be carried out in Asia and Europe, from 2015 through 2017. Upgrades will include the Sperry Marine VisionMaster FT family of products and market-leading navigation systems such as the NAVIGAT™ Gyrocompasses, NAVIPILOT™ and NAVIGUIDE™ Autopilots and NAVIKNOT™ Speed Log.

"This contract extends the on-going business relationship that we have with Maersk Line," said Jeanne Usher, managing director, Northrop Grumman Sperry Marine. "The upgrade programme will ensure that the vessels are equipped with a broad array of advanced navigation systems which will significantly improve situational awareness in addition to providing safe navigation for the crew."

Northrop Grumman is a leading global security company providing innovative systems, products and solutions in unmanned systems, cyber, C4ISR, and logistics and modernization to government and commercial customers worldwide. Please visit www.northropgrumman.com for more information.
