

Northrop Grumman to Demonstrate C-130 Center Wing Box Restoration Solution at C-130 Technical Coordination Group International Technical Program Review

October 22, 2015

FALLS CHURCH, Va., Oct. 22, 2015 (GLOBE NEWSWIRE) -- Northrop Grumman Corporation (NYSE:NOC) will demonstrate the company's new C-130 center wing box restoration solution at the C-130 Technical Coordination Group (TCG) International Technical Program Review (ITPR), taking place Oct. 26-30 at the Embassy Suites Charleston Area Convention Center in North Charleston, South Carolina. As the first-and-only global provider of this restoration capability, Northrop Grumman's innovative solution restores C-130 center wing boxes to zero-time and extends the life of the box by a minimum of 30,000 equivalent baseline flight hours, providing both cost and time savings to the customer.

What: Northrop Grumman C-130 Center Wing Box Solution Demonstration at the 2015 C-130 Technical Coordination Group International Technical Program Review

When: Monday, Oct. 26, through Friday, Oct. 30, 2015

Where: Northrop Grumman Exhibit Booth #217
Embassy Suites Charleston Area Convention Center
5055 International Blvd.
Charleston, SC 29418

Northrop Grumman's exhibit booth #217 will provide an overview of the company's center wing box restoration solution, including a 3-D immersive environment demonstration and video. One-on-one interviews with Northrop Grumman can be arranged by visiting the company's exhibit booth.
