FINANCIAL STATEMENTS:	
Statements of Net Assets Available for Plan Benefits and Supplemental Information by Fund as of December 31, 1998 and 1997	5-7
Statement of Changes in Net Assets Available for Plan Benefits and Supplemental Information by Fund for the Year Ended December 31, 1998	8-9
Notes to Financial Statements	10-16
SUPPLEMENTAL SCHEDULE:	
Item 27a - Assets Held for Investment Purposes at December 31, 1998	18-33

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of the Northrop Grumman Savings and Investment Plan:

We have audited the accompanying statements of net assets available for plan benefits of the Northrop Grumman Savings and Investment Plan (the "Plan") as of December 31, 1998 and 1997, and the related statement of changes in net assets available for plan benefits for the year ended December 31, 1998. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, such financial statements present fairly, in all material respects, the net assets available for plan benefits as of December 31, 1998 and 1997, and the changes in net assets available for plan benefits for the year ended December 31, 1998, in conformity with generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets held for investment purposes at December 31, 1998 is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The supplemental information by fund in the statements of net assets available for plan benefits and the statement of changes in net assets available for plan benefits is presented for the purpose of additional analysis rather than to present the net assets available for plan benefits and changes in net assets available for plan benefits of the individual funds. The supplemental schedule and supplemental information by fund are the responsibility of the Plan's management. Such supplemental schedule and supplemental information by fund have been subjected to the auditing procedures applied in our audits of the basic financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

TEARS LINED DECEMBER 31, 1990 AND 1997

A. DESCRIPTION OF THE PLAN

The following description of the Northrop Grumman Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Northrop Grumman Savings and Investment Plan is a qualified profit sharing and employee stock ownership plan sponsored by Northrop Grumman Corporation (the "Company"). It was established February 1, 1962 and restated effective January 1, 1995, covering all hourly and salaried employees who are at least 18 years old, citizens or residents of the United States of America, and are not covered under another plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

On January 1, 1998, the Company merged the plan assets of the Northrop Grumman Retirement and Savings Plan with the Plan. On April 1, 1998, the Company merged the plan assets of the Grumman Technical Services, Inc. Aircraft Services Unit (Operations and Maintenance) Capital Accumulation Plan, Grumman Technical Services, Inc. Represented Employee Investment Plan, Grumman Technical Services, Inc. Capital Accumulation Plan SPC - Represented Employees, Grumman St. Augustine Corporation Capital Accumulation Plan, Grumman Aerospace Corporation Electronics Systems Division (Salisbury, Maryland Operations) Capital Accumulation Plan, and Georgia Production Site Retirement and Savings Plan with the Plan. On July 1, 1998, the Company merged the plan assets of the Grumman Systems Support Corporation Money Purchase Pension Plan with the Plan. Effective July 1, 1998, with the completion of all of the plan mergers, the Plan no longer participated in the Northrop Grumman Corporation Savings and Investment Plan Master Trust (the "Master Trust").

Contributions - The Plan offers employees a choice between the type of contributions they can make, and such contributions may be between 1% and 18% of eligible compensation. A participant can elect tax-deferred (before-tax) contributions, after-tax contributions or a combination of both. An active participant may change the percentage of his or her contributions. Contributions are subject to certain limitations.

The Company's matching contributions are as follows:

Employee Contribution	Company Match
First 2% of eligible compensation	100%
Next 2% of eligible compensation	50%

Next 2% of eligible compensation 50% Next 4% of eligible compensation 25% Contribution over 8% 0%

Participant Accounts - A separate account is maintained for each participant. Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, (b) Plan earnings, and (c) administrative expenses. Allocations are based on

participant earnings on account balances, as defined in the Plan agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Plan participants are fully vested (100%) at all times in the balance of their accounts (both employee and employer contributions), none of which may be forfeited for any reason.

Investment Options - Upon enrollment in the Plan, each participant may direct that his or her employee contributions and Company matching contributions, in 1% increments, be invested in any of the following seven investment funds.

U.S. Equity Fund - The U.S.Equity Fund consists of holdings in large-and medium-sized U.S. company stocks. These stocks are selected by independent professional investment managers appointed by the Plan's Investment Committee. This fund is designed to provide results that closely match those of the Standard & Poor's 500 Stock Index.

Fixed Income Fund - The Fixed Income Fund is broadly diversified and maintains an average maturity of 10 years. This fund consists of holdings in marketable fixed income securities rated within the three highest investment grades (i.e., A or better) assigned by Moody's Investor Services or Standard & Poor's Corporation, U.S. Treasury or federal agency obligations, or cash-equivalent instruments. The securities are selected by independent professional investment managers appointed by the Plan's Investment Committee.

Stable Value Fund - The Stable Value Fund is diversified among U.S. government securities and obligations of government agencies, bonds, short-term investments, cash and contracts issued by insurance companies and banks. The fund is managed by an independent professional investment manager appointed by the Plan's Investment Committee.

Northrop Grumman Fund - The Northrop Grumman Fund invests exclusively in Northrop Grumman Corporation common stock.

Balanced Fund - The Balanced Fund is a fully diversified portfolio consisting of fixed portions of five of the savings plan funds (Stable Value Fund, U.S. Equity Fund, Fixed Income, International Equity Fund, and Small Cap Fund). The fund seeks to exceed the return of the bond market and approach the return of the stock market, but with less risk than an investment only in stocks.

International Equity Fund - The International Equity Fund consists of stocks of a diversified group of companies in developed countries outside the United States. The fund's objective is capital appreciation over the long term, along with some current income (dividends).

Small Cap Fund - The Small Cap Fund consists of stocks of a diversified group of small-capitalization U.S. companies. The stocks purchased by the fund typically have a market capitalization similar to companies in the Russell 2000 Index, which are companies with an average market capitalization of \$500 million. The fund's objective is capital appreciation over the long term, rather than current income (dividends).

Participants may change their investment options daily.

The Equity Growth Fund and the PAYSOP Fund were transferred from the Employee Investment Plan of Grumman Corporation, which was merged with the Plan on August 1, 1995. These two funds were frozen, and no employee contributions have been allowed subsequent to the merger. Distributions from the Equity Growth Fund are made under the provisions of the Plan. The PAYSOP Fund was terminated in 1997, and the assets of the fund were distributed to the participants of the fund.

Contributions deposited into each investment fund buy a number of units in each fund. The value of each participant's account within each fund depends on two factors: (1) the number of units purchased to date, and (2) the current value of each unit. Unit values are updated daily prior to any plan transactions, including contributions, withdrawals, distributions, and transfers.

Participant Notes Receivable - Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of their account balance reduced by the highest outstanding balance over the last twelve months. A participant may not have more than one outstanding loan at any given time. Loans will be prorated across all investment funds and are secured by the balance in the participant's account. The interest rate is fixed on the first business day of each month at the prime rate of the Plan's trustee plus 1%. Repayments are made from monthly payroll deductions (for active employees) or personal check (for former employees or employees on a leave of absence). The maximum loan period is five years, or ten years for a loan used to acquire a dwelling that is to be the principal residence of the participant. Loans may be prepaid in full; partial prepayments are not permitted.

Payment of Benefits - On termination of service due to death, disability or retirement, a participant may receive a lump-sum payment of his or her account balance. A participant may also delay his or her lump-sum payment until the age of 70 1/2, if the account balance exceeds \$5,000.

Distribution from the Northrop Grumman Fund will be paid in cash, stock or a combination of both, depending on the participant's election.

Withdrawals - A participant may withdraw all or a portion of his or her after-tax contributions (plus earnings) at any time. In addition, a participant may withdraw all or a portion of his or her Company matching contribution (plus earnings) that have been in the Plan for at least 24 months. A participant may withdraw all or a portion of his or her before-tax contributions for any reason after reaching age 59 1/2, or prior to reaching age 59 1/2 in the case of hardship (as described in the Plan document).

B. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - In the accompanying statements of net assets available for plan benefits as of December 31, 1998, the Plan's investments are stated at fair value, except for the investments in insurance and investment contracts included in the Northrop Grumman Stable Value Master Trust, which are stated at contract value (see Note C). Quoted market prices are used to determine the fair value of the investments. In the accompanying statement of net assets available for plan benefits as of December 31, 1997, the Plan's interest in the Master Trust is stated at fair value, except for the investments in insurance and investment contracts, which are stated at contract value (see Note C). Quoted market prices are used to value investments (except insurance and investment contracts) in the Master Trust. All other investments are stated at fair value, based on quoted market prices. Notes receivable from participants are valued at cost, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Broker commissions, transfer taxes, and other charges and expenses incurred in connection with the purchase, sale or other disposition of securities or other investments held by the Master Trust are added to the cost of such securities or other investments, or are deducted from the proceeds of the sale or other disposition thereof, as appropriate. Taxes (if any) on the assets of the funds, or on any gain resulting from the sale or other disposition of such assets, or on the earnings of the funds, are apportioned in such a manner as the trustees deem equitable among the participants and former participants (if any) whose interests in the Plan are affected, and the share of such taxes apportioned to each such person is charged against his or her account in the Plan.

Payment of Benefits - Benefits are recorded when paid. As of December 31, 1998 and 1997, benefits payable in cash to participants are \$14,796,768 and \$36,108,483, respectively. Additionally, the market values of shares of Northrop Grumman Corporation common stock to be distributed as of December 31, 1998 and 1997 are \$8,785 and \$574,050, respectively.

C. INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

All investment and insurance contracts held by the Northrop Grumman Stable Value Master Trust (the "Stable Value Master Trust") as of December 31, 1998, and the Master Trust as of December 31, 1997, are considered to be fully benefit-responsive and, therefore, are reported at contract value. Contract value represents contributions made under the contract, plus interest at the contract rate, less withdrawals and administrative expenses.

The following information is disclosed for the investment and insurance contracts within the Stable Value Master Trust as of December 31, 1998, and the Master Trust as of December 31, 1997 (in millions):

	1990	1997
Contract value of assets:	\$1,299	\$870
Fair value of assets:	\$1,343	\$899
Average yield on assets on December 31: Crediting interest rate of assets	7.09 %	7.27 %
at December 31:	7.08 %	6.50 %
Duration:	2.58 Years	2.89 years

D. INVESTMENTS

Except for its insurance and investment contracts (see Note C), the Plan's investments as of December 31, 1998 and 1997, are stated at fair value as determined by quoted market prices.

On January 1, 1998, Northrop Grumman Corporation pooled all of the insurance and investment contracts for the Northrop Grumman Corporation Savings and Investment Plan Master Trust, the Northrop Grumman Master Trust, and the contracts held by the Northrop Grumman Electronic Sensors and Systems Division Savings and Investment Program into the Stable Value Master Trust.

Investments held at contract value in the Stable Value Master Trust as of December 31, 1998 are as follows (in thousands):

Guaranteed and Bank Investment Contracts	\$1,298,790
Northrop Retirement Savings Temporary Investment Fund	60,090
Accrued income	113
Total	\$1 358 993

The Plan's investment in the Stable Value Master Trust as of December 31, 1998 is as follows (in thousands):

Contract value of Guaranteed and Bank Investment Contracts \$868,476
Percentage of ownership \$3.91%

Investment income in the Stable Value Master Trust was \$91,158,197\$ for the year ended December 31, 1998.

Except for its insurance and investment contracts (see Note C), the Plan's investments as of December 31, 1997 are stated at fair values determined and reported by Bankers Trust Company, the trustee, in accordance with the Master Trust Agreement established by Northrop Grumman Corporation. Proportionate interests of each participating plan are ascertained on the basis of the trustee's equitable share accounting method for master trust arrangements. Plan assets represent 98% of total net assets reported by the trustee of the Master Trust as of December 31, 1997. The trustee's administration fees and investment management fees are charged to the Plan.

The net assets of the Master Trust at fair value consist of the following as of December 31, 1997:

Assets:

F. TRANSACTIONS WITH PARTIES-IN-INTEREST

In Plan management's opinion, fees paid during the year for services rendered by parties-in-interest were based upon customary and reasonable rates for such services.

G. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, the interests of all participants in their accounts are 100% vested and nonforfeitable.

H. INCOME TAXES

The Internal Revenue Service (the "IRS") ruled in 1989 that the Plan qualifies under Section 401(a) of the Internal Revenue Code (the "IRC"), and therefore, the related trust is not subject to tax under the present income tax law. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Company is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status. On November 6, 1996, the Company received a favorable determination letter from the IRS stating that the Plan, as amended, continues to meet the requirements of Section 401(a) of the IRC.

I. DESCRIPTION OF PLAN MERGERS

Effective January 1, 1998, plan assets of \$49,348,374 of the Northrop Grumman Retirement and Savings Plan were merged into the Plan.

Effective April 1, 1998, the following plan assets were merged into the Plan:

\$8,994,131 of the Grumman Technical Services, Inc. Aircraft Services Unit (Operations and Maintenance) Capital Accumulation Plan

\$480,298 of the Grumman Technical Services, Inc. Represented Employee Investment Plan

140,345 of the Grumman Technical Services, Inc. Capital Accumulation Plan SPC - Represented Employees

\$4,096,989 of the Grumman St. Augustine Corporation Capital Accumulation Plan

\$399,275 of the Grumman Aerospace Corporation Electronics Systems Division (Salisbury, Maryland Operations) Capital Accumulation Plan

\$5,238,270 of the Georgia Production Site Retirement and Savings Plan

Effective July 1, 1998, plan assets of 5,139,182 of the Grumman Systems Support Money Purchase Plan were merged into the Plan.

The total transferred net assets of \$73,836,864 have been recognized in the accounts of the Plan at their balances as previously carried in the accounts of the former plans.
