Northrop Grumman Reports First Quarter 2018 Financial Results

- Q1 Sales Increase 5 Percent to \$6.7 Billion
- Q1 EPS Increase 14 Percent to \$4.21
- 2018 EPS Guidance Increased to \$15.40 to \$15.65

FALLS CHURCH, Va. – April 25, 2018 – Northrop Grumman Corporation (NYSE: NOC) reported first quarter 2018 sales increased 5 percent to \$6.7 billion from \$6.4 billion in the first quarter of 2017. First quarter 2018 net earnings increased 14 percent to \$739 million, or \$4.21 per diluted share, compared with \$650 million, or \$3.69 per diluted share, in the prior year period.

"Our strong first quarter financial results reflect our continued focus on delivering long-term profitable growth for our shareholders, customers and employees. All three of our businesses generated solid results. Based on our first quarter results we are raising our guidance for earnings per share," said Wes Bush, chairman and chief executive officer.

The company's first quarter 2018 results reflect the adoption of Accounting Standards Codification (ASC) Topic 606, *Revenue from Contracts with Customers*, and Accounting Standards Update (ASU) No. 2017-07, *Compensation Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*, using the full retrospective method. Schedules 4 and 5 at the end of this release present comparable prior period consolidated and segment financial information recast to reflect the adoption of these standards.

First quarter 2018 sales increased 5 percent, due to higher sales in Aerospace Systems and Mission Systems, partially offset by lower sales at Technology Services. First quarter segment operating income increased 3 percent due to higher sales. Segment operating margin rate declined to 11.3 percent due to a lower margin rate at Aerospace Systems. First quarter operating income and margin rate declined to \$854 million and 12.7 percent, respectively, compared with \$862 million and 13.4 percent in the prior year period, primarily due to a \$27 million decrease in net FAS (service)/CAS pension adjustment, partially offset by a \$21 million increase in segment operating income.

First quarter interest expense increased \$68 million. Other, net increased \$21 million due to a \$31 million increase in interest income. These changes reflect the company's issuance in October 2017 of \$8.25 billion of debt to finance its pending acquisition of Orbital ATK.

The company's first quarter effective tax rate declined to 15.2 percent from 17.5 percent in the prior year period. The lower tax rate reflects the benefit of the Tax Cuts and Jobs Act of 2017, which reduced the federal statutory tax rate to 21 percent from 35 percent. First quarter 2018 tax benefits for research credits were comparable to the prior year period, and excess tax benefits related to employee share-based compensation totaled \$26 million in the first quarter of 2018 compared with \$47 million in the first quarter of 2017. The first quarter of 2017 also benefited from several other discrete items.

Aerospace Systems

	First Quarter				
(\$ in millions)	 2018		2017	Change	
Sales	\$ 3,280	\$	2,984	10%	
Operating income	341		323	6%	
Operating margin rate	10.4%		10.8%		

Aerospace Systems first quarter 2018 sales increased 10 percent, principally due to higher Manned Aircraft sales. Higher volume for restricted activities and the F-35 and E-2D programs were the primary drivers of increased Manned Aircraft volume. Autonomous Systems and Space Systems sales were slightly higher than the prior year period. Autonomous Systems sales included higher volume on the Fire Scout and Triton programs, partially offset by lower Global Hawk volume. Space sales included higher restricted and Ground Based Strategic Deterrent volume, partially offset by lower intercompany, James Webb Space Telescope and Advanced Extremely High Frequency payload volume.

Northrop Grumman Corporation

² Refer to Table 1 for reconciliation to operating income.

Aerospace Systems first quarter 2018 operating income increased 6 percent due to higher sales, and operating margin rate declined to 10.4 percent primarily due to a non-programmatic benefit recognized during the first quarter of 2017 and higher volume on early phase development programs in 2018.

Mission Systems

		First Quarter							
(\$ in millions)	_	2018		2017	Change				
Sales	\$	2,883	\$	2,800	3%				
Operating income		371		359	3%				
Operating margin rate		12.9%		12.8%					

Mission Systems first quarter 2018 sales increased 3 percent principally due to higher volume for Sensors and Processing programs, partially offset by lower volume for Cyber and ISR programs. Higher Sensors and Processing sales are primarily due to higher volume on electro-optical/infrared self-protection and targeting programs, F-35 sensors, and restricted programs. Lower volume for Cyber and ISR reflects lower volume on restricted ISR activities. Advanced Capabilities sales were comparable to the prior year period.

Mission Systems first quarter 2018 operating income increased 3 percent, consistent with higher sales, and operating margin rate was comparable to the prior year period.

Technology Services

	First Quarter								
(\$ in millions)	 2018		2017	Change					
Sales	\$ 1,144	\$	1,190	(4%)					
Operating income	122		129	(5%)					
Operating margin rate	10.7%		10.8%						

Technology Services first quarter 2018 sales decreased 4 percent due to the completion in 2017 of several programs in System Modernization and Services and Advanced Defense Services. These declines were partially offset by higher volume on several Global Logistics and Modernization programs, including the Special Electronic Mission Aircraft program.

Technology Services first quarter 2018 operating income decreased 5 percent and operating margin rate was comparable to the prior year period.

2018 Guidance

2018 financial guidance reflects the company's judgment based on the information available to the company at the time of this release. The government budget and appropriations processes can impact our customers, programs and financial results. Government budgets, appropriations, including the timing of appropriations, and the occurrence of continuing resolutions and government shutdowns can impact the company's ability to achieve 2018 guidance.

While the company currently expects its previously announced acquisition of Orbital ATK will close in the first half of this year, 2018 guidance does not reflect the pending acquisition. Additionally, 2018 guidance reflects only six months of interest on the \$8.25 billion of debt issued in October 2017 to finance the acquisition. After the close of the acquisition, the company will update its financial guidance to reflect the acquisition.

Northrop Grumman Corporation

² Total Net FAS/CAS pension adjustment is presented as a single amount consistent with our historical presentation, and includes expected 2018 CAS pension cost of \$875 million and FAS pension benefit of \$85 million. In accordance with ASU No. 2017-07, \$400 million of FAS (service-related) pension cost is reflected in operating income and \$485 million of FAS (non-service) pension benefit is reflected below operating income. CAS pension cost continues to be recorded in operating income. See Schedule 4 for further information.

³ Net Interest Expense (interest expense net of interest income) includes six months of net interest expense for \$8.25 billion debt issued in October 2017 to finance the pending Orbital ATK acquisition, as well as a full year of estimated net interest expense for the company's remaining debt. Interest expense is presented as a single line item on the income statement and interest income is included in Other, net on the income statement.

Forward-Looking Statements

This earnings release and the information we are incorporating by reference contain statements, other than statements of historical fact, that constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as "will," "expect," "intend," "may," "could," "plan," "project," "forecast," "believe," "estimate," "guidance," "outlook," "anticipate," "trends," "goals" and similar expressions generally identify these forward-looking statements.

Forward-looking statements include, among other things, statements relating to our future financial condition, results of operations and/or cash flows. Forward-looking statements are based upon assumptions, expectations, plans and projections that we believe to be reasonable when made, but which may change over time. These statements are not guarantees of future performance and inherently involve a wide range of risks and uncertainties that are difficult to predict. Specific risks that could cause actual results to differ materially from those expressed or implied in these forward-looking statements include, but are not limited to, those identified and discussed more fully in the section entitled "Risk Factors" in our 2017 Annual Report on Form 10-K and other filings with the Securities and Exchange Commission (SEC). They include:

- our dependence on the U.S. Government for a substantial portion of our business
- significant delays or reductions in appropriations for our programs and U.S. Government funding more broadly
- investigations, claims, disputes, enforcement actions and/or litigation
- the use of estimates when accounting for our contracts and the effect of contract cost growth and/or changes in estimated contract revenues and costs
- our exposure to additional risks as a result of our international business, including risks related to geopolitical and economic factors, laws and regulations
- the improper conduct of employees, agents, subcontractors, suppliers, business partners or joint ventures in which we participate and the impact on our reputation, our ability to do business, and our financial position, results of operations and/or cash flows
- cyber and other security threats or disruptions faced by us, our customers or our suppliers and other partners
- the performance and financial viability of our subcontractors and suppliers and the availability and pricing of raw materials and components
- changes in procurement and other laws, regulations and practices applicable to our industry, findings by the U.S. Government as to our compliance with such laws and regulations, and changes in our customers' business practices globally
- · increased competition within our markets and bid protests

Northrop Grumman Corporation

- the ability to maintain a qualified workforce
- our ability to meet performance obligations under our contracts, including obligations that are technologically complex, require certain manufacturing expertise or are dependent on factors not wholly within our control
- environmental matters, including unforeseen environmental costs and government and third party claims
- natural and/or environmental disasters
- · the adequacy and availability of our insurance coverage, customer indemnifications or other liability protections
- products and services we provide related to hazardous and high risk operations, which subject us to various environmental, regulatory, financial, reputational and other risks
- the future investment performance of plan assets, changes in actuarial assumptions associated with our pension and other
 post-retirement benefit plans and legislative or other regulatory actions impacting our pension, post-retirement and health
 and welfare plans
- the satisfaction of conditions (including regulatory approvals) to and successful consummation of the pending acquisition of
 Orbital ATK; our ability successfully to integrate the Orbital ATK business and realize fully the anticipated benefits of the
 acquisition, without adverse consequences
- our ability to exploit or protect intellectual property rights
- our ability to develop new products and technologies and maintain technologies, facilities, and equipment to win new competitions and meet the needs of our customers
- changes in business conditions that could impact business investments and/or recorded goodwill or the value of other long-lived assets
- unanticipated changes in our tax provisions or exposure to additional tax liabilities

Additional information regarding these risks and other important factors can be found in the section entitled "Risk Factors" in our 2017 Annual Report on Form 10-K and from time to time in our other filings with the SEC.

You are urged to consider the limitations on, and risks associated with, forward-looking statements and not unduly rely on the accuracy of forward-looking statements. These forward-looking statements speak only as of the date this earnings release is first issued or, in the case of any document incorporated by reference, the date of that document. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law.

This release and the attachments also contain non-GAAP financial measures. A reconciliation to the nearest GAAP measure and a discussion of the company's use of these measures are included in this release or the attachments.

 $^{^{1}\}quad$ Non-GAAP measure — see definitions at the end of this earnings release.

Non-GAAP Financial Measures Disclosure: This earnings release contains non-GAAP (accounting principles generally accepted in the United States of America) financial measures, as defined by SEC (Securities and Exchange Commission) Regulation G and indicated by a footnote in the text of the release. Definitions for the non-GAAP measures are provided below and reconciliations are provided in the body of the release. References to a "Table" in the definitions below relate to tables in the body of the release. Other companies may define these measures differently or may utilize different non-GAAP measures

<u>Segment operating income:</u> Total earnings from our three segments, including allocated pension expense recognized under CAS, and excluding unallocated corporate items and FAS pension expense. This measure may be useful to investors and other users of our financial statements as a supplemental measure in evaluating the financial performance and operational trends of our sectors. This measure should not be considered in isolation or as an alternative to operating results presented in accordance with GAAP. Segment operating income is reconciled in Table 1.

<u>Segment operating margin rate:</u> Segment operating income as defined above, and reconciled in Table 1, divided by sales. This measure may be useful to investors and other users of our financial statements as a supplemental measure in evaluating the financial performance and operational trends of our sectors. This measure should not be considered in isolation or as an alternative to operating results presented in accordance with GAAP.

<u>Free cash flow:</u> Net cash used in operating activities less capital expenditures. We use free cash flow as a key factor in our planning for, and consideration of, acquisitions, stock repurchases and the payment of dividends. This measure may be useful to investors and other users of our financial statements as a supplemental measure of our cash performance, but should not be considered in isolation, as a measure of residual cash flow available for discretionary purposes, or as an alternative to operating cash flows presented in accordance with GAAP. Free cash flow is reconciled in Table 2.
