

Northrop Grumman to Brief Media on Advances in Aircraft Protection

September 4, 2013

Company will reveal new Infrared Counter Measures (ICRM) solution for fast jets

Jeffrey Palombo, sector vice president and general manager of Northrop Grumman Corporation's (NYSE: NOC) Land and Self Protection Systems Division, will address the changing aircraft threat environment and the need for both ICRM and multispectral protection systems. Palombo will discuss advances in aircraft protection for a wide range of missions and aircraft, both fixed- and rotary-wing. The company will also reveal its new ICRM solution for fast jets.
