This MOU will launch the 2014 UAE Innovation Challenge. During this competition, Northrop Grumman engineers mentor student teams from HCT for several months as they design, build and fly unmanned aerial vehicles.

The first MOU between Northrop Grumman and HCT was signed in 2010, with the goal of developing initiatives related to science, technology, engineering and mathematics in the UAE. The UAE Innovation Challenge has been the most significant program to emerge from this collaboration. An additional sponsor of the competition is Abu Dhabi Autonomous Systems Investments.
