In her new role, Daegele will be responsible for the financial and business administration activities for Unmanned Systems and its programs. She will report to Sunil Navale, vice president of business management and chief financial officer of Northrop Grumman Aerospace Systems.

Daegele joined the company in 1985 and has held numerous positions in business management and business development in such areas as advanced technology programs, national systems and TRW Ventures. Most recently, Daegele served as director of business management for Space Systems, where she was responsible for business units including aerospace products, missile defense, and systems operations and maintenance.

Daegele earned bachelor's degrees in economics and political science from DePauw University and a master's degree in business administration with an emphasis in finance from Loyola Marymount University. She also has earned a certificate in contract management from the University of California, Los Angeles.

Northrop Grumman is a leading global security company providing innovative systems, products and solutions in unmanned systems, cyber, C4ISR, and logistics and modernization to government and commercial customers worldwide.
