

Northrop Grumman Wins ICBM Ground Subsystems Support Contract with Potential Value of \$963.5 Million

January 15, 2015

HERNDON, Va., Jan. 15, 2015 /PRNewswire/ -- The U.S. Air Force has awarded Northrop Grumman Corporation (NYSE: NOC) a contract for the support of Minuteman III Intercontinental Ballistic Missile (ICBM) Ground Subsystems. Northrop Grumman is the sole award recipient for the indefinite delivery/indefinite quantity contract that is worth \$963.5 million, with an initial award value of approximately \$4.4 million.

The Northrop Grumman logo, featuring the company name in a bold, blue, sans-serif font. Below the text is a long, thin, blue curved line that starts under the 'N' and ends under the 'M'.

The work will be performed by Northrop Grumman personnel at Hill Air Force Base, Utah; Omaha, Nebraska; Vandenberg Air Force Base, California; and San Bernardino, California.

"Northrop Grumman continues a 50-plus year partnership with the U.S. Air Force on ICBMs," said Steve Hogan, sector vice president and general manager, Integrated Logistics and Modernization division, Northrop Grumman Technical Services. "Our more than 17-year experience as the ICBM prime integration contractor uniquely qualifies us to perform the required operational and sustainment activities that ensure the security, surety and reliability of our nation's ICBM weapon system."

Under this five-year contract, Northrop Grumman will provide program management support, engineering services and emergency response to the U.S. Air Force. This effort encompasses weapon system analyses, system and subsystems assessment, and technical advisement and assistance to the ICBM Systems Directorate on ground systems-related programs, risk management and mitigation.

"With our experienced leadership and revitalized workforce, Northrop Grumman will provide the U.S. Air Force with a highly-capable engineering and management support team in an affordable program structure," said John Parker, director, Weapon Systems Sustainment and Modernization, Northrop Grumman Technical Services. "Our team will assist in continually assessing and sustaining the ICBM ground subsystems segment using our proven, innovative approaches to ensure mission success."

Northrop Grumman is a leading global security company providing innovative systems, products and solutions in unmanned systems, cyber, C4ISR, and logistics and modernization to government and commercial customers worldwide. Please visit www.northropgrumman.com for more information.
