"Engineers Choice Awards" presented to top Northrop Grumman aerospace engineering professionals

REDONDO BEACH, Calif., Feb. 17, 2015 /PRNewswire/ -- Northrop Grumman Corporation (NYSE: NOC) recently hosted its second annual "Engineers Choice Awards" event recognizing the achievements of more than 90 top aerospace engineers. The company's peer-recognition program identifies and celebrates individual engineers as well as engineering teams for exemplary technical accomplishments and demonstration of leadership, innovation, affordability, collaboration and execution of the company's objectives.

"Engineering drives our business and people's lives depend upon the work that we do," said Peggy Nelson, vice president, engineering and global product development, Northrop Grumman Aerospace Systems. "Our work helps preserve freedom and that's an important duty. Our aerospace programs are supported by a team of more than 9,000 talented engineers and the Engineers Choice Awards help us to celebrate exemplary engineering performance, which is often done under great challenges and with high levels of scrutiny. Providing the systems that safeguard our national security is what we do better than any other company in our industry."

Award winners were selected from more than 420 nominations in eight different categories and presented at a luncheon ceremony at the Portofino Inn in Redondo Beach. This year's winners are:
