# Forward-Looking Statements

This presentation and the information we are incorporating by reference contain or may contain statements that constitute “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as “will,” “expect,” “anticipate,” “intend,” “may,” “could,” “should,” “plan,” “project,” “forecast,” “believe,” “estimate,” “guidance,” “outlook,” “trends,” “goals” and similar expressions generally identify these forward-looking statements.

Forward-looking statements include, among other things, statements relating to our future financial condition, results of operations and/or cash flows. Forward-looking statements are based upon assumptions, expectations, plans and projections that we believe to be reasonable when made, but which may change over time. These statements are not guarantees of future performance and inherently involve a wide range of risks and uncertainties that are difficult to predict. Specific risks that could cause actual results to differ materially from those expressed or implied in these forward-looking statements include, but are not limited to, those identified and discussed more fully in the section entitled “Risk Factors” in the Form 10-K for the year ended December 31, 2019, the section entitled “Risk Factors” in the Form 10-Q for the quarter ended March 31, 2020 and from time to time in our other filings with the Securities and Exchange Commission (SEC). These risks and uncertainties are amplified by the global COVID-19 pandemic, which has caused and will continue to cause significant challenges, instability and uncertainty. They include:

- the impact of the COVID-19 outbreak or future epidemics on our business, including the potential for worker absenteeism, facility closures, work slowdowns or stoppages, supply chain disruptions, program delays, our ability to recover costs under contracts, changing government funding and acquisition priorities and processes, changing government payment rules and practices, and potential impacts on access to capital, the markets and the fair value of our assets
- our dependence on the U.S. government for a substantial portion of our business
- significant delays or reductions in appropriations for our programs, and U.S. government funding and program support more broadly
- investigations, claims, disputes, enforcement actions, litigation and/or other legal proceedings
- the use of estimates when accounting for our contracts and the effect of contract cost growth and/or changes in estimated contract revenues and costs
- our exposure to additional risks as a result of our international business, including risks related to geopolitical and economic factors, suppliers, laws and regulations
- the improper conduct of employees, agents, subcontractors, suppliers, business partners or joint ventures in which we participate and the impact on our reputation and our ability to do business
- cyber and other security threats or disruptions faced by us, our customers or our suppliers and other partners
- the performance and financial viability of our subcontractors and suppliers and the availability and pricing of raw materials and components
- changes in procurement and other laws, regulations, contract terms and practices applicable to our industry, findings by the U.S. government as to our compliance with such requirements, and changes in our customers’ business practices globally
- increased competition within our markets and bid protests
- the ability to maintain a qualified workforce with the required security clearances and requisite skills
- our ability to meet performance obligations under our contracts, including obligations that require innovative design capabilities, are technologically complex, require certain manufacturing expertise or are dependent on factors not wholly within our control
- environmental matters, including unforeseen environmental costs and government and third party claims
- natural disasters
- health epidemics, pandemics and similar outbreaks, including the global COVID-19 pandemic
- the adequacy and availability of our insurance coverage, customer indemnifications or other liability protections
- products and services we provide related to hazardous and high risk operations, including the production and use of such products, which subject us to various environmental, regulatory, financial, reputational and other risks
- the future investment performance of plan assets, changes in actuarial assumptions associated with our pension and other postretirement benefit plans and legislative or other regulatory actions impacting our pension and postretirement benefit obligations
- our ability appropriately to exploit and/or protect intellectual property rights
- our ability to develop new products and technologies and maintain technologies, facilities, and equipment to win new competitions and meet the needs of our customers
- unanticipated changes in our tax provisions or exposure to additional tax liabilities
- changes in business conditions that could impact business investments and/or recorded goodwill or the value of other long-lived assets

You are urged to consider the limitations on, and risks associated with, forward-looking statements and not unduly rely on the accuracy of forward-looking statements. These forward-looking statements speak only as of the date this presentation or, in the case of any document incorporated by reference, the date of that document. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by applicable law.

This presentation and the attachments also contain non-GAAP financial measures. A reconciliation to the nearest GAAP measure and a discussion of the company’s use of these measures are included in this presentation.

# Northrop Grumman Today

- Leading global aerospace and defense company
- \$33.8 billion sales in 2019
  - 85% U.S. / 15% International
- \$81.3 billion total backlog  
*(as of September 30, 2020)*
- ~90,000 employees
- Leading capabilities in:
  - Space
  - Manned & Autonomous airborne systems, including Strike
  - Hypersonics
  - Cyber
  - C4ISR
  - Logistics and Modernization

Focus on Growth and Performance

# New Operating Structure

## AS

- Autonomous Systems
- Manned Aircraft

## DS

- Battle Management & Missile Systems
- Mission Readiness

## MS

- Airborne Sensors & Networks
- Cyber & Intelligence Mission Solutions
- Maritime/Land Systems & Sensors
- Navigation, Targeting & Survivability

## Space

- Launch & Strategic Missiles
- Space

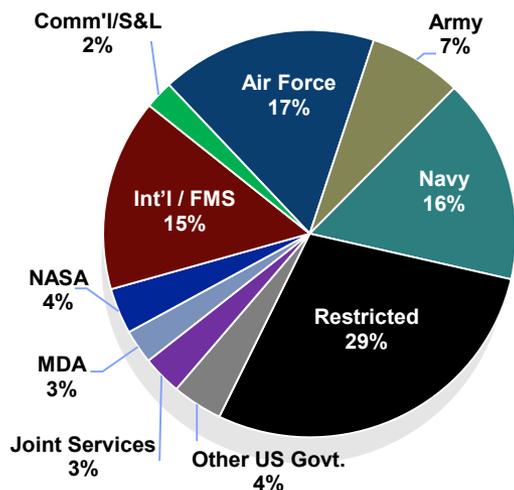

## 2019 Highlights

- Total backlog increased 21% to \$64.8 billion
- Book-to-bill of 1.3 times
- Sales of \$33.8 billion - 12% increase
- Total operating margin rate 11.7%
- Segment operating margin rate 11.6%<sup>(1)</sup>
- \$4.3 billion cash provided by operations
- \$3.0 billion free cash flow<sup>(1)</sup>
- Balanced capital deployment
  - \$700 million of debt and commercial paper retired
  - Quarterly dividend increased 10%
  - Shares outstanding reduced by 3%

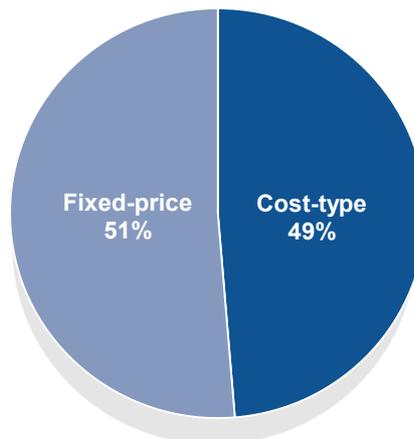

(1) Non-GAAP metric as defined and reconciled in the Appendix of this presentation.

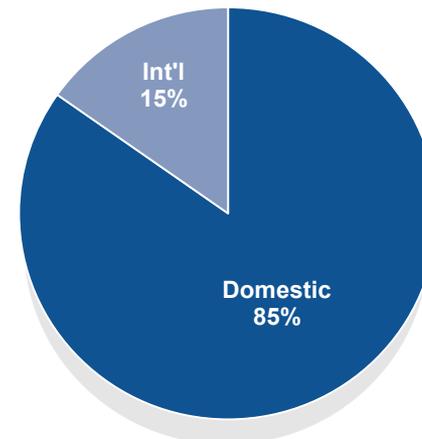

# 2019 Sales Mix

- Portfolio diversified across U.S. DoD services
- Differentiated technologies in all domains
- Positioned on high priority programs
- Represents ultimate end user customer where we are a subcontractor

- Portfolio addresses entire product lifecycle – development to production to sustainment
- Well balanced cost plus and fixed price contract mix

- Strengthening international business
- Improving export climate

Balanced Portfolio Supports Topline Growth and Solid Performance

# Aeronautics Systems

# Aeronautics Systems

## Performance

- Solid growth
- Focus on execution
- Margin performance and cash generation
- Invest and innovate for affordability
- Diverse, engaged workforce

## Strategy

- Sustainable competitive differentiation
- Invest in our people
- Build strong trusted customer relationships
- Develop affordable total life cycle solutions
- Invest in new technologies necessary to solve hard national security challenges
- Grow the business through smart capture management

## Sales & Margin Rate

# Capabilities & Key Programs

## Manned Aircraft

- Designs, develops, manufactures and integrates strategic long-range strike aircraft systems, tactical fighter aircraft and airborne battle management systems.
- Key programs:
  - Long range strike – B-21 Raider, B-2 Spirit
  - Tactical fighters – F-35 Lightning II, F/A-18 Super Hornet
  - Airborne battle management – E-2D Advanced Hawkeye, E-8C JSTARS

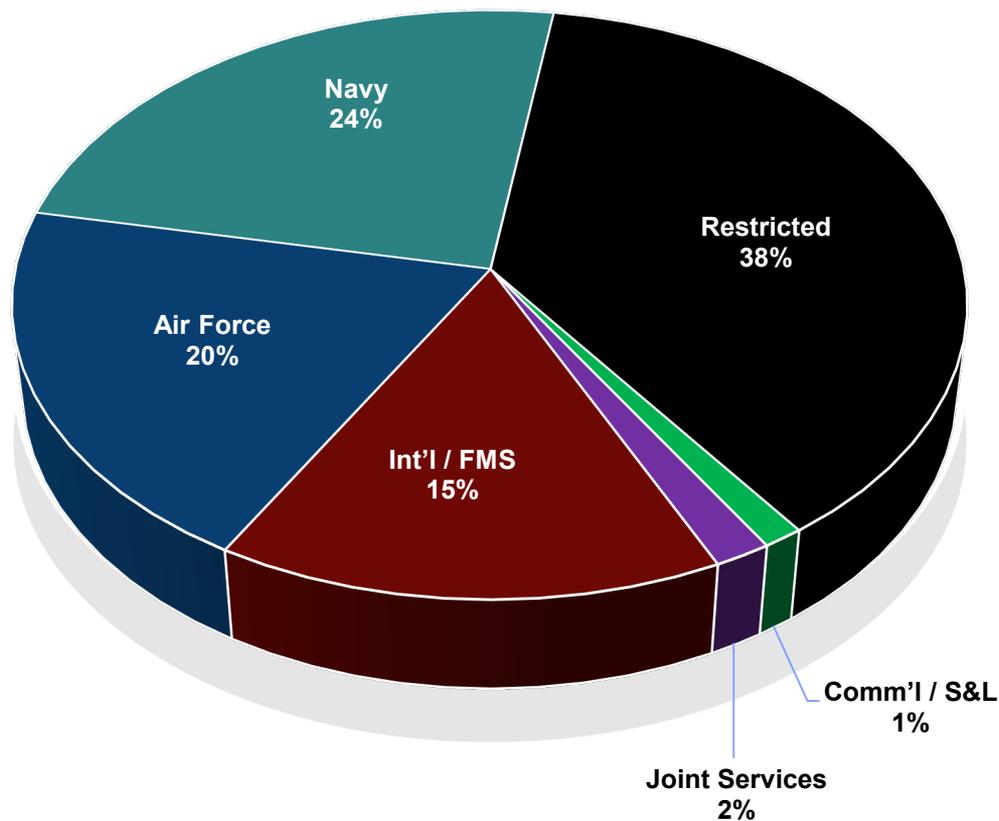

## Autonomous Systems

- Designs, develops, manufactures, integrates and sustains autonomous aircraft systems for strategic and tactical ISR missions.
- Key Programs:
  - Strategic ISR platforms - RQ-4 Global Hawk, MQ-4C Triton, NATO Alliance Ground Surveillance
  - Tactical ISR – MQ-8 Fire Scout, Firebird

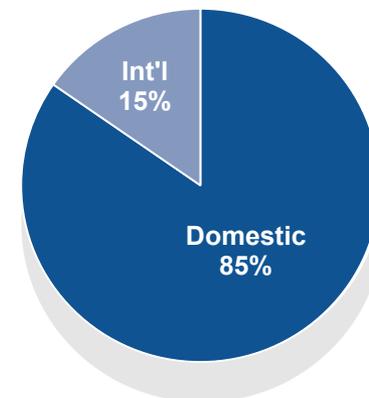

# Aeronautics Systems 2019 Sales Mix

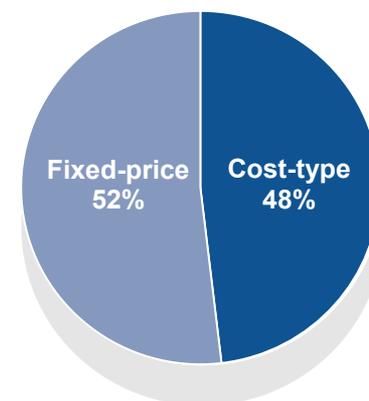

## Sales by Customer

# 2019 Sales Mix

# Defense Systems

# Defense Systems

## Performance

- Agile and efficient operations
- Diverse program portfolio
- Strong globally-positioned talent
- Cost focus to increase competitiveness
- Solid cash generation

## Strategy

- Broad spectrum provider of critical warfighting capabilities and services including advanced missiles, weapons, and command and control
- Focused on quick turn solutions for evolving needs and threats coupled with through life support for platforms

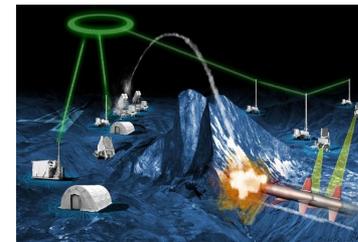

**Sales & Margin Rate**

# Capabilities & Key Programs

## Battle Management & Missile Systems

- Designs, develops and integrates multi-domain C2 and weapons systems
- Key programs:
  - Integrated Air and Missile Defense Battle Command System (IBCS) for the U.S. Army and Poland
  - Counter Rocket, Artillery and Mortar (C-RAM)
  - Advanced Anti-Radiation Guided Missile (AARGM)
  - Precision Munitions including Precision Guidance Kit (PGK)
  - Mission Command Training Program (MCTP)

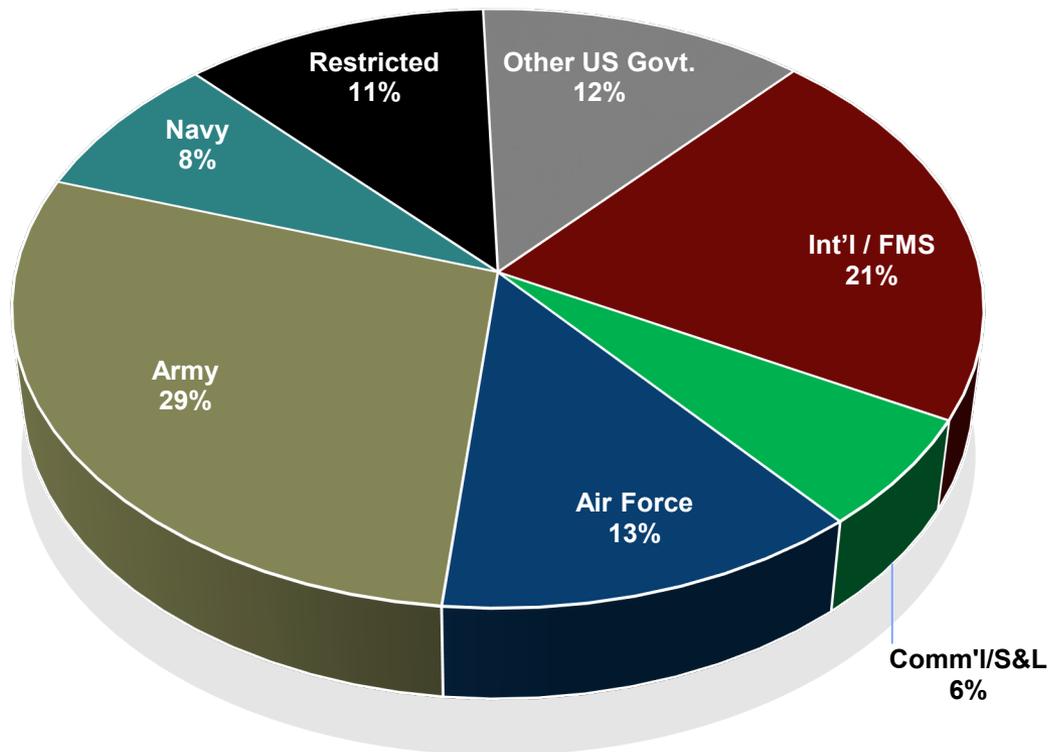

## Mission Readiness

- Provides full life cycle service and support for software, weapons systems and aircraft, and logistics support, sustainment, operations and modernization for air, sea and ground
- Key programs:
  - Social Security Administration Information Technology Support Services Contract
  - Restricted intelligence operations
  - Program Systems Product Directorate for DHS
  - Consular Systems Modernization for Department of State
  - System sustainment and operations support for:
    - AAQ-24 Directional Infrared Countermeasures System, Battlefield Airborne Communications Node (BACN), B-2 Spirit bomber, E-8C JSTARS surveillance aircraft, KC-30A multi-role tanker, C-27J transport, Global Hawk, Triton, and F-35

# 2019 Sales Mix

# Mission Systems

# Mission Systems

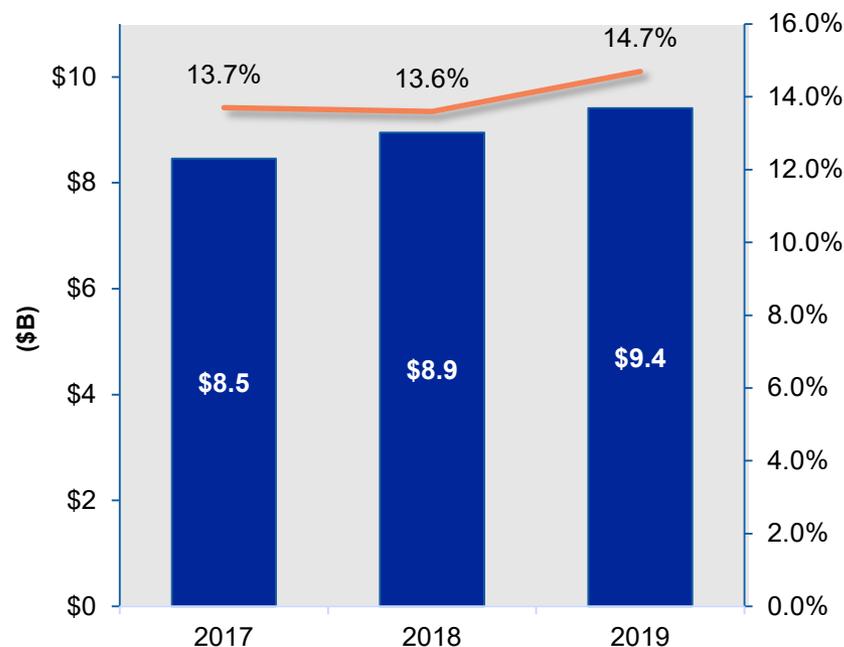

## Performance

- Growing revenue base
- Strong program execution
- Invest and innovate for technological superiority and affordability
- Strong margin performance and cash generation
- Diverse and engaged global workforce

## Strategy

- Deliver affordable solutions that unlock speed, connectivity, and value for customers
- Expand platform positions with integrated solutions
- Maintain focus on program execution
- Grow internationally
- Attract, develop, and maintain world class workforce

## Sales & Margin Rate

# Capabilities & Key Programs

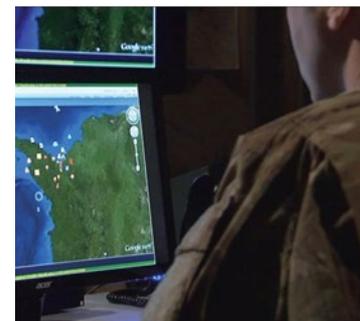

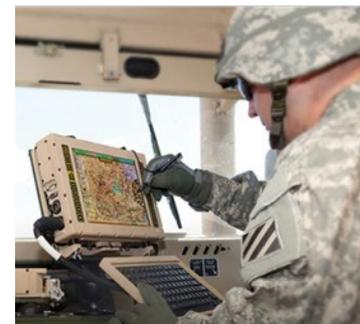

## Airborne Sensors & Networks

- Fire control, surveillance and early warning and control radar systems; electronic attack and electronic support systems; software defined radios and network gateways, communications and counter-communications systems; and multi-sensor processing.
- Key programs:
  - Airborne Early Warning & Control and air-to-ground sensors
  - Battlefield Airborne Communications Node (BACN)
  - F-35 fire control radar, Distributed Aperture System (DAS), and Communications, Navigation and Identification (CNI) integrated avionics system
  - Scalable Agile Beam Radar (SABR) for F-16
  - Restricted programs

## Cyber & Intelligence Mission Solutions

- Cyber mission management; large-scale cyber solutions for national security applications; cyber survivability; ground software systems; SIGINT sensors and processing; and geospatial intelligence and data fusion, specializing in the collection, processing and exploitation of data.
- Key programs:
  - Exploitation and cyber programs
  - Enhanced Solutions for the Information Technology Enterprise (E-SITE)
  - Restricted programs

# Capabilities & Key Programs

## Maritime/Land Systems & Sensors

- Ground and maritime radar systems; nuclear ship propulsion and power generation systems; shipboard missile and encapsulated payload launch systems; integrated bridge systems; unmanned maritime vehicles; high-resolution undersea sensors; deep-sea packaging; and mission integration.
- Key programs:
  - Surface Electronic Warfare Improvement Program (SEWIP) Block III
  - Ground/Air Task Oriented Radar (G/ATOR)
  - Submarine power, propulsion, launch and sensing systems for Ohio, Virginia and Columbia class submarines
  - AQS-24B Mine-hunting System
  - Restricted programs

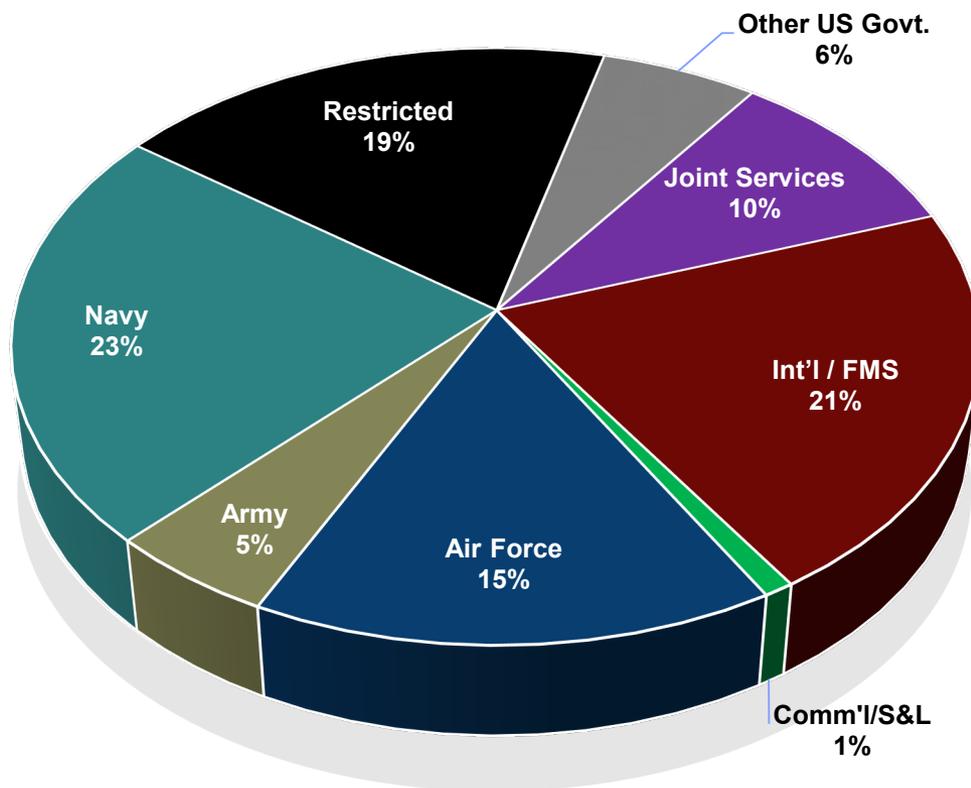

## Navigation, Targeting & Survivability

- Competencies include EO/IR and RF self-protection; targeting and surveillance systems; digitized cockpits; and inertial navigation systems.
- Key programs:
  - LITENING Advanced Targeting Pod
  - Large Aircraft and Common Infrared Countermeasures (LAIRCM, DoN LAIRCM, CIRCM) systems
  - APR-39 DV(2) and EV(2) Radar Warning Receiver programs
  - Embedded Global Positioning System (GPS)/Inertial Navigation Systems-Modernization (EGI-M) program
  - UH-60V Black Hawk integrated mission equipment package
  - Restricted programs

# 2019 Sales Mix

# Space Systems

# Space Systems

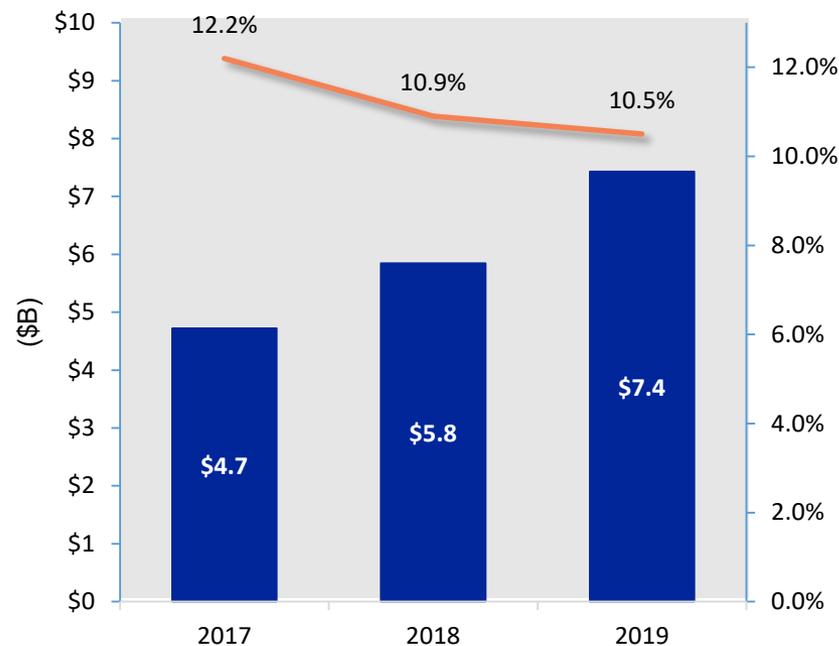

## Performance

- Growing sector aligned with emerging government space priorities and nuclear triad recapitalization
- Large restricted footprint due to differentiated technologies supporting evolving National Security threats
- Solid margin performance and cash generation

## Strategy

- End to end space, launch, and missile systems provider serving national security, civil & commercial customers
- Develop disruptive technologies
- Maintain focus on program execution
- Attract, develop, and maintain world class workforce

## Sales & Margin Rate

# Capabilities & Key Programs

## Launch & Strategic Missiles

- Competencies include strategic missile sustainment as well as the production of medium- and large-class rocket propulsion systems for human and cargo launch vehicles, hypersonic boosters and missile defense interceptors.
- Key programs:
  - Missile defense systems and interceptor boosters for Ground-based Midcourse Defense (GMD) system
  - Antares rocket for Commercial Resupply Services (CRS)
  - Solid rocket motors for NASA's Space Launch System (SLS) heavy lift vehicle
  - Solid rocket motors for U.S. Navy's Trident II Fleet Ballistic Missile program
  - GBSD Engineering & Manufacturing Development program
  - Intercontinental Ballistic Missile (ICBM) Ground Subsystem Support Contract (GSSC)

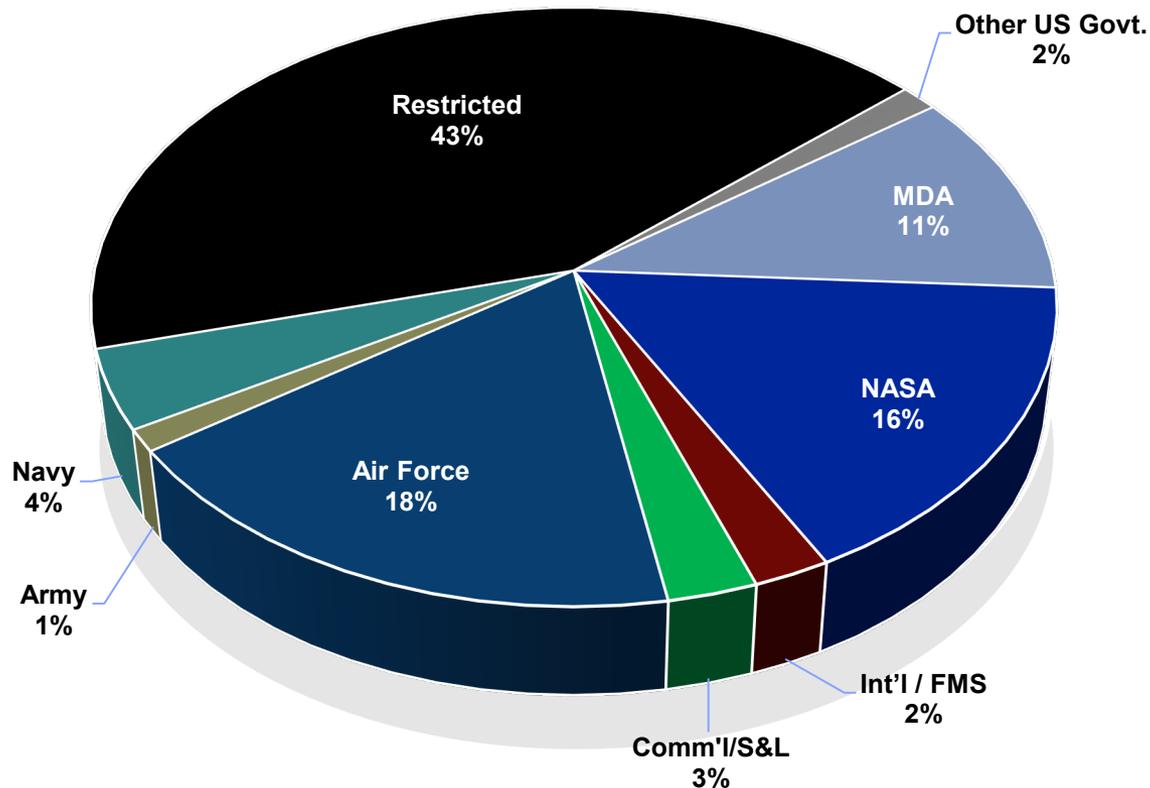

## Space

- Designs, develops, manufactures and integrates spacecraft systems, subsystems, sensors, payloads and ground systems to deliver mission capability to national security, science and environmental, communications, on-orbit servicing, and human-rated space systems for earth orbit and deep-space exploration missions.
- Key programs:
  - Restricted
  - Cygnus spacecraft used in CRS contracts with NASA
  - Advanced Extremely High Frequency (AEHF) and Enhanced Polar System (EPS) payloads
  - Next-Generation Overhead Persistent Infrared Program (OPIR) satellites and payloads
  - James Webb Space Telescope (JWST)

# NOC 2020 Guidance

## 2020 Guidance as of October 22, 2020<sup>(1)</sup>

2020 (millions, except per share amounts)	As of 7/30/2020 <sup>(1)</sup>	As of 10/22/2020 <sup>(1)</sup>
Sales	35,300 – 35,600	<b>35,700 – 36,000</b>
Segment operating margin % <sup>(2)(3)</sup>	11.3 – 11.5%	<b>11.3 – 11.5%</b>
Total Net FAS/CAS pension adjustment <sup>(4)</sup>	~1,600	<b>~1,625</b>
Unallocated corporate expense		
Intangible asset amortization and PP&E step-up depreciation	~315	<b>~315</b>
Other items	~250	<b>~250</b>
Operating margin %	10.8 – 11.0%	<b>10.8 – 11.0%</b>
Interest expense	~590	<b>~590</b>
Effective tax rate %	~16.5%	<b>~16.5%</b>
Weighted average diluted shares outstanding	~168	<b>~168</b>
MTM-adjusted EPS <sup>(2)</sup>	22.00 – 22.40	<b>22.25 – 22.65</b>
Capital expenditures	~1,350	<b>~1,350</b>
Free cash flow <sup>(2)</sup>	3,150 – 3,550	<b>3,300 – 3,600</b>

(1) Financial guidance, as well as outlook, trends, expectations and other forward looking statements provided by the company for 2020, 2021 and beyond, reflect the company's judgment based on the information available to the company at the time of this release. The company is increasing its 2020 financial guidance based on year-to-date performance and its most current outlook for the remainder of the year. The company's 2020 financial guidance and outlook for 2021 and beyond reflect the impacts experienced to date from the global COVID-19 pandemic (discussed in the company's Form 10-Qs), and what the company currently anticipates, based on what the company understands today, to be the impacts on the company for the remainder of the year and beyond. The company's updated financial guidance and outlook assume generally that the most significant adverse impacts from the pandemic on the company's business, financial position, results of operations or cash flows occurred in the second quarter of 2020. However, the company cannot predict how the pandemic will evolve or what impact it will continue to have, and there can be no assurance that the company's underlying assumptions are correct. As discussed more fully in the company's Form 10-Qs (for Q1, Q2 and Q3), and among other factors, disruptions to the company's operations (or those of its customers or supply chain), additional costs, disruptions in the market, and impacts on programs or payments relating to the global COVID-19 pandemic, today and as it may evolve, can be expected to affect the company's ability to achieve guidance or meet expectations. In addition, the government budget, appropriations and procurement processes can impact our customers, programs and financial results. These processes, including the timing of appropriations and the occurrence of an extended continuing resolution and/or prolonged government shutdown, as well as a breach of the debt ceiling, or changes in support for our programs or in federal corporate tax rates, can impact the company's ability to achieve guidance or meet expectations.

(2) Non-GAAP metric. See Appendix.

(3) Effective April 1, 2020, certain unallowable costs previously included in segment operating results are now reported in Unallocated corporate expense within operating income.

(4) Total Net FAS/CAS pension adjustment is presented as a single amount consistent with our historical presentation, and includes \$825 million of expected CAS pension cost and \$800 million of expected FAS pension benefit. \$410 million of FAS (service-related) pension cost is reflected in operating income and \$1,210 million of FAS (non-service) pension benefit is reflected below operating income. CAS pension cost continues to be recorded in operating income.

## 2020 Sector Guidance as of October 22, 2020<sup>(1)</sup>

	As of 7/30/2020 <sup>(1)</sup>	As of 10/22/2020 <sup>(1)</sup>
<b>Aeronautics Systems</b>		
Sales \$B	Low to Mid 11	<b>Mid 11</b>
OM Rate	~10%	<b>~10%</b>
<b>Defense Systems</b>		
Sales \$B	Mid 7	<b>Mid 7</b>
OM Rate	Mid 10%	<b>~11%</b>
<b>Mission Systems</b>		
Sales \$B	High 9	<b>High 9</b>
OM Rate	Low to Mid 14%	<b>Mid 14%</b>
<b>Space Systems</b>		
Sales \$B	Low 8	<b>Mid 8</b>
OM Rate	Low to Mid 10%	<b>Low 10%</b>

<sup>(1)</sup> Financial guidance, as well as outlook, trends, expectations and other forward looking statements provided by the company for 2020, 2021 and beyond, reflect the company's judgment based on the information available to the company at the time of this release. The company is increasing its 2020 financial guidance based on year-to-date performance and its most current outlook for the remainder of the year. The company's 2020 financial guidance and outlook for 2021 and beyond reflect the impacts experienced to date from the global COVID-19 pandemic (discussed in the company's Form 10-Qs), and what the company currently anticipates, based on what the company understands today, to be the impacts on the company for the remainder of the year and beyond. The company's updated financial guidance and outlook assume generally that the most significant adverse impacts from the pandemic on the company's business, financial position, results of operations or cash flows occurred in the second quarter of 2020. However, the company cannot predict how the pandemic will evolve or what impact it will continue to have, and there can be no assurance that the company's underlying assumptions are correct. As discussed more fully in the company's Form 10-Qs (for Q1, Q2 and Q3), and among other factors, disruptions to the company's operations (or those of its customers or supply chain), additional costs, disruptions in the market, and impacts on programs or payments relating to the global COVID-19 pandemic, today and as it may evolve, can be expected to affect the company's ability to achieve guidance or meet expectations. In addition, the government budget, appropriations and procurement processes can impact our customers, programs and financial results. These processes, including the timing of appropriations and the occurrence of an extended continuing resolution and/or prolonged government shutdown, as well as a breach of the debt ceiling, or changes in support for our programs or in federal corporate tax rates, can impact the company's ability to achieve guidance or meet expectations.

## 2021 Outlook as of 10/22/2020<sup>(1)</sup>

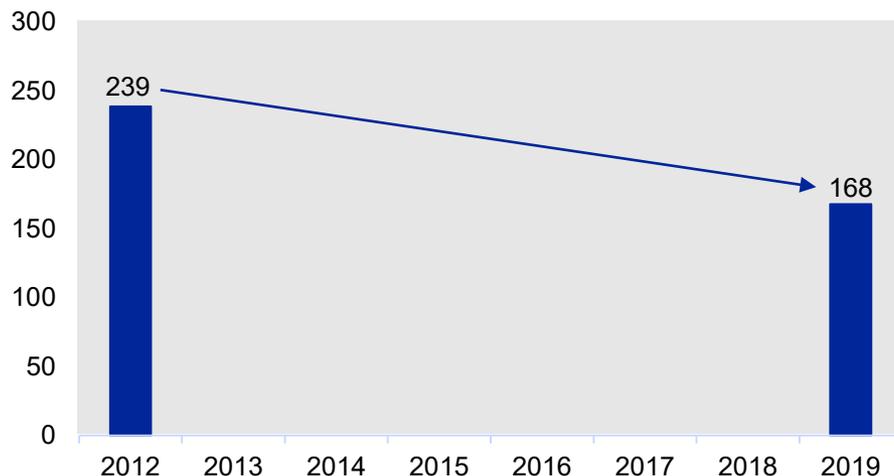

- Expect 2021 sales in the low to mid \$37 billion range
- Expect 2021 Segment OM<sup>(2)</sup> rate near lower end of 2020 guidance of 11.3% to 11.5%
- Continued strong free cash flow<sup>(2)</sup>
- Net FAS/CAS pension adjustment likely \$150 - \$250 million lower than 1/30/20 estimate due to potential changes in pension assumptions

*(1) Financial guidance, as well as outlook, trends, expectations and other forward looking statements provided by the company for 2020, 2021 and beyond, reflect the company's judgment based on the information available to the company at the time of this release. The company is increasing its 2020 financial guidance based on year-to-date performance and its most current outlook for the remainder of the year. The company's 2020 financial guidance and outlook for 2021 and beyond reflect the impacts experienced to date from the global COVID-19 pandemic (discussed in the company's Form 10-Qs), and what the company currently anticipates, based on what the company understands today, to be the impacts on the company for the remainder of the year and beyond. The company's updated financial guidance and outlook assume generally that the most significant adverse impacts from the pandemic on the company's business, financial position, results of operations or cash flows occurred in the second quarter of 2020. However, the company cannot predict how the pandemic will evolve or what impact it will continue to have, and there can be no assurance that the company's underlying assumptions are correct. As discussed more fully in the company's Form 10-Qs (for Q1, Q2 and Q3), and among other factors, disruptions to the company's operations (or those of its customers or supply chain), additional costs, disruptions in the market, and impacts on programs or payments relating to the global COVID-19 pandemic, today and as it may evolve, can be expected to affect the company's ability to achieve guidance or meet expectations. In addition, the government budget, appropriations and procurement processes can impact our customers, programs and financial results. These processes, including the timing of appropriations and the occurrence of an extended continuing resolution and/or prolonged government shutdown, as well as a breach of the debt ceiling, or changes in support for our programs or in federal corporate tax rates, can impact the company's ability to achieve guidance or meet expectations.*

*(2) Non-GAAP metric. See Appendix.*

# Consistent Return of Cash to Shareholders

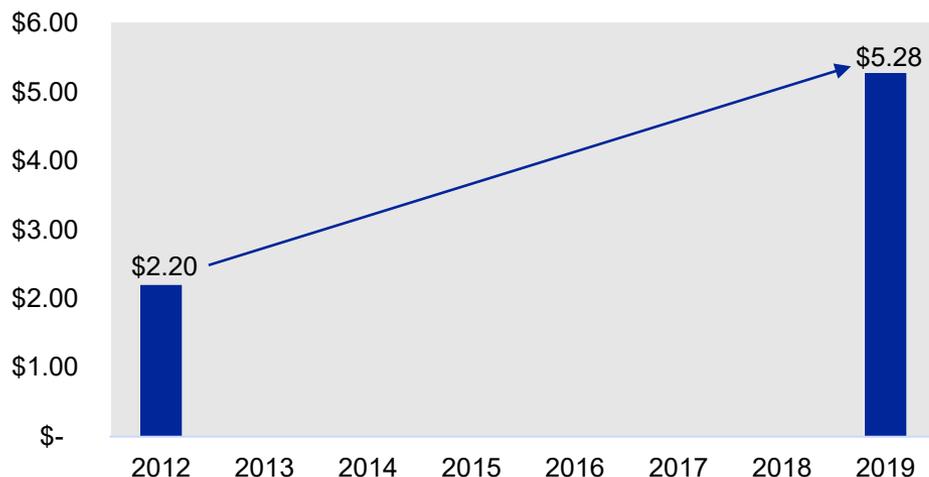

## Shares Outstanding

## Share Repurchases

- 60M share repurchase program completed in October 2015 @ average price of ~\$125 per share
- >50% reduction in shares outstanding since 2003 @ average price of \$86.70 per share
- \$1 billion ASR announced in Q4 2018 completed in Jan. 2019, retiring 3.84 million shares @ average price of ~\$260.

## Annualized Dividend

## Dividends

- 20% Dividend increase in 2018, including:
  - 10% off-cycle increase in January
  - 9% increase in May
- 10% Dividend increase in May 2019
- 10% Dividend increase in May 2020

## 2019 ESG Report Card

---

- Dow Jones Sustainability North America Index for the fourth consecutive year
- AA rating from MSCI for environmental, social and governance management and performance
- One of Corporate Responsibility Magazine's 100 Best Corporate Citizens
- One of DiversityInc's Top 50 Companies for Diversity for the tenth year in a row
- Number one for both veterans and people with disabilities
- Received the highest ranking for the fifth year in a row on the Disability Equality Index
- Named a “Best Place to Work For Disability Inclusion”
- Achieved a perfect score on the Corporate Equality Index and designated a “Best Place to Work for LGBTQ Equality”
- A leadership score of A- in CDP’s 2019 climate change program for the eighth consecutive year
- Ranking by Indeed as one of the 50 Top-Rated Workplaces

# Appendix

# Non-GAAP Definitions

- **Non-GAAP Financial Measures Disclosure:** This presentation contains non-GAAP (accounting principles generally accepted in the United States of America) financial measures, as defined by SEC Regulation G and indicated by a footnote in the text of the presentation. Definitions for the non-GAAP measures are provided below and reconciliations are provided in the body of the presentation. Other companies may define these measures differently or may utilize different non-GAAP measures.
- **MTM-adjusted net earnings:** Net earnings excluding MTM (expense) benefit and related tax impacts. This measure may be useful to investors and other users of our financial statements as a supplemental measure in evaluating the company's underlying financial performance by presenting the company's operating results before the non-operational impact of pension and OPB actuarial gains and losses. This measure is also consistent with how management views the underlying performance of the business as the impact of MTM accounting is not considered in management's assessment of the company's operating performance or in its determination of incentive compensation awards. MTM-adjusted net earnings is reconciled in the "Non-GAAP Reconciliations – MTM-adjusted net earnings and earnings per share" table in the Appendix.
- **MTM-adjusted diluted EPS:** Diluted earnings per share excluding the per share impact of MTM (expense) benefit and related tax impacts. This measure may be useful to investors and other users of our financial statements as a supplemental measure in evaluating the company's underlying financial performance per share by presenting the company's diluted earnings per share results before the non-operational impact of pension and OPB actuarial gains and losses. MTM-adjusted diluted EPS is reconciled in the "Non-GAAP Reconciliations – MTM-adjusted net earnings and earnings per share" table in the Appendix.
- **Segment operating income and segment operating margin rate:** Segment operating income, as reconciled in the "Non-GAAP Reconciliations – Segment Operating Income" table in the Appendix, and segment operating margin rate (segment operating income divided by sales) reflect total earnings from our four segments, including allocated pension expense we have recognized under CAS, and excluding unallocated corporate items and FAS pension expense. These measures may be useful to investors and other users of our financial statements as supplemental measures in evaluating the financial performance and operational trends of our sectors. These measures should not be considered in isolation or as alternatives to operating results presented in accordance with GAAP.
- **Free cash flow:** Net cash provided by operating activities less capital expenditures. We use free cash flow as a key factor in our planning for, and consideration of, acquisitions, stock repurchases and the payment of dividends. This measure may be useful to investors and other users of our financial statements as a supplemental measure of our cash performance, but should not be considered in isolation, as a measure of residual cash flow available for discretionary purposes, or as an alternative to operating cash flows presented in accordance with GAAP. Free cash flow is reconciled in the "Non-GAAP Reconciliations – Free Cash Flow" table in the Appendix.

## Non-GAAP Reconciliations – Free Cash Flow

\$ millions	Three Months Ended December 31			Year Ended December 31		
	2019	2018	▲%	2019	2018	▲%
Net cash provided by operating activities	\$ 2,464	\$ 2,377	4%	\$ 4,297	\$ 3,827	12%
Less: capital expenditures	(471)	(463)	2%	(1,264)	(1,249)	1%
Free cash flow	\$ 1,993	\$ 1,914	4%	\$ 3,033	\$ 2,578	18%

# Non-GAAP Reconciliations – Segment Operating Income

\$ millions	Three Months Ended December 31		Year Ended December 31

Dilution adjustments <sup>(2)</sup>	\$ 0.02	\$ –	\$ –	\$ –
MTM-adjusted diluted EPS <sup>(2)</sup>	\$ 5.61	\$ 4.93	\$ 21.21	\$ 21.33

<sup>(1)</sup> Based on the statutory federal tax rate and a blended state tax rate for all periods presented.

<sup>(2)</sup> Fourth quarter 2019 diluted EPS excludes the dilutive effect of awards granted to employees under stock-based compensation plans as such awards would be antidilutive. MTM-adjusted diluted EPS is calculated using weighted-average diluted shares outstanding of 169.3 million.

**NORTHROP**  
**GRUMMAN**

The logo symbol consists of a thick horizontal line on the right side of the word "NORTHROP", a vertical line extending downwards from the right end of that horizontal line, and a shorter horizontal line at the bottom connecting the vertical line back to the right side of the word "GRUMMAN".
